EXPERIENCE

Marketing Data Analyst Intern

July 2026 -

Erthe Golf - DTC Luxury golf apparel

Los Angeles, CA

- Cut checkout drop-off 15% by analyzing PDP friction points identified through GA4 funnel analysis of drop-off, conversion rate, and common user paths.
- Built a PDP audit AI agent that runs a full audit across any of the 180+ SKUs and 9 product categories in minutes, replacing an estimated 30+ hours of manual audit work
- Built a 6-factor weighted product-selection scoring model, evaluating category demand, brand-category fit, price, margin, return risk to generate BUY/TEST/PASS recommendations for pre-launch product decisions.
- Built & automated recurring dashboard refreshes for weekly traffic, conversion, and inventory tracking in Looker by building an AI agent with the Claude API, cutting maintenance time 83%.
- Informed Black Friday strategy by using SQL to segment 1,000+ new customers across 48 category/price-tier combinations and researching competitor pricing and promotions.

Data Analyst Intern

Mar 2026 – Jun 2026

Mazda North American Operations

San Diego, CA

- Flagged \$380M in at-risk annual service revenue, 71% concentrated in the top 25% of customers, by building an XGBoost churn model (0.822 ROC-AUC, 3x lift) and presenting SHAP-based findings to shape retention strategy.
- Classified free-text labor descriptions into 15 standardized service categories using NLP-based text classification, achieving 80% accuracy and enabling consistent service-type analysis across 7.6M repair records.

Business Analyst (ServiceNow)

Dec 2023 – July 2025

Ralph Lauren

Bangalore, India

- Replaced manual tracking for 15+ teams by building ServiceNow KPI dashboards for real-time ticket and SLA visibility, driving SLA compliance to 95%+.
- Cut ticket resolution time 25% by automating ticket routing, approvals, and fulfillment workflows in ServiceNow across APAC, EU, and NA regions.

SKILLS

Tools & Platforms: SQL (Joins, Window Functions, CTEs), Python (Pandas, NumPy, Scikit-learn), GA4, Tableau, Excel (Formulas, Pivot Tables, Lookups), PowerPoint, Shopify, Microsoft Clarity, Google Search Console

Data Analytics: EDA, Statistical Modeling, Hypothesis Testing, Predictive Modeling, Machine Learning, NLP, Data Mining, Data Visualization, Data Storytelling, A/B Testing, Competitive Analysis, Data Cleaning & Validation

PROJECTS

AI-Driven Creator Sourcing & Automation for Gymshark | *Python, Claude API, GenAI* 02/2026

- Built an end-to-end AI-automated workflow using the Claude API to handle influencer creator sourcing, scoring, outreach drafting, and campaign performance analytics, reducing time per creator by 53%.

Ad Campaign Uplift and Propensity Modeling | *Python* 02/2026

- Projected \$51K in incremental profit by building uplift and propensity models on a 60K-customer randomized ad experiment to identify campaign responders, then scaled targeting to a 120K-customer deployment.

Marketing Analytics & Predictive Modeling (Intuit QuickBooks Upgrade) | *Python* 01/2026

- Developed and validated response and conversion models on 75k customers, scaling predicted probabilities to an 800k customer population to estimate response rates, lift, and profit for campaign targeting.

User Behavior & Churn Analysis Dashboard | *Tableau* 11/2025

- Designed a 5-component Tableau dashboard on a dating app dataset, applying feature-importance analysis and cohort retention modeling to identify key behavioral drivers of user churn and engagement timing.

ETL & SQL Data Integration in Snowflake | *SQL* 09/2025

- Ensured data integrity across 44+ datasets by building ETL pipelines into Snowflake and creating reconciliation views to catch discrepancies in invoice, supplier, and transaction feeds.

EDUCATION

University of California, San Diego

San Diego, CA

MS in Business Analytics - 3.7/4

Dec 2026

Visvesvaraya Technological University

Bangalore, India

BTech in Electronics and Communication Engineering - 3.7/4

May 2023
